PART I. FINANCIAL INFORMATION

Item 1. Financial Statements (Unaudited)

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
West Corporation and subsidiaries
Omaha, Nebraska

We have reviewed the accompanying condensed consolidated balance sheet of West Corporation and subsidiaries (the "Company") as of June 30, 2017, and the related condensed consolidated statements of income and comprehensive income for the three-month and six-month periods ended June 30, 2017 and 2016 and of cash flows and stockholders' deficit, for the six-month periods ended June 30, 2017 and 2016. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of West Corporation and subsidiaries as of December 31, 2016, and the related consolidated statements of income, comprehensive income, stockholders' deficit, and cash flows for the year then ended (not presented herein); and in our report dated February 16, 2017, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2016 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Pending Merger

On May 9, 2017, West entered into an Agreement and Plan of Merger (the “Merger Agreement”) by and among Mount Olympus Holdings, Inc., a Delaware corporation (“Parent”), Olympus Merger Sub, Inc., a Delaware corporation and a wholly-owned subsidiary of Parent (“Sub”), and the Company, providing for, subject to the satisfaction or waiver of specified conditions, the acquisition of West by Parent at a price of \$23.50 per share in cash (the “Merger Consideration”). Parent and Sub are affiliates of certain funds managed by affiliates of Apollo Global Management, LLC. Subject to the terms and conditions of the Merger Agreement, Sub will be merged into West (the “Merger”), with West surviving the Merger as a wholly-owned subsidiary of Parent. The Merger Agreement and the consummation of the transactions contemplated by the Merger Agreement have been unanimously approved by the Company’s board of directors.

Pursuant to the Merger Agreement, at the effective time of the Merger (the “Effective Time”), each share of common stock of the Company (a “Share”) issued and outstanding immediately prior to the Effective Time (other than (i) Shares held by stockholders of the Company who have properly exercised and perfected appraisal rights under Delaware law and (ii) Shares that are held in the treasury of the Company or owned of record by any wholly-owned subsidiary of the Company, Parent or any wholly-owned subsidiary of Parent) will be converted into the right to receive \$23.50 per Share in cash, without interest, subject to any applicable withholding-taxes.

The consummation of the Merger is subject to the satisfaction or waiver of specified closing conditions, including (i) the approval of the Merger by the holders of a majority of the voting power of the outstanding Shares entitled to vote thereon, (ii) the expiration or termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended (the “HSR Act”), and the receipt of certain required foreign antitrust approvals, (iii) receipt of approval by the Federal Communications Commission, (iv) receipt of certain required state telecommunications regulatory approvals, (v) the absence of the occurrence of a Company Material Adverse Effect (as defined in the Merger Agreement) after the date of the Merger Agreement and (vi) other customary closing conditions. The consummation of the Merger is not subject to a financing condition. Early termination of the waiting period under the HSR Act was granted on June 6, 2017 and the required foreign antitrust approvals were obtained in July 2017. The Company received approval from the Federal Communications Commission in July 2017. On July 26, 2017, the Company’s stockholders approved the Merger. The Merger remains subject to the closing conditions described above (to the extent not already satisfied) and is expected to close during the second half of 2017.

WEST CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

Basis of Consolidation—The unaudited condensed consolidated financial statements include the accounts of West and its wholly-owned subsidiaries. The unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto, together with Management’s Discussion and Analysis of Financial Condition and Results of Operations, contained in our Annual Report on Form 10-K for the year ended December 31, 2016. All intercompany balances and transactions have been eliminated in the consolidated financial statements. Our results for the three and six months ended June 30, 2017 are not necessarily indicative of what our results will be for other interim periods or for the full fiscal year.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition—Revenue is recognized when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, price is fixed or determinable and collectability is reasonably assured. Amounts billed in advance of providing service are deferred and recorded as deferred revenue or other long-term liabilities on the balance sheet until service has been provided.

Income Tax—For the three and six months ended June 30, 2017, income tax expense was \$22.7 million and \$44.2 million, respectively, and the effective income tax rate was 33.6% and 30.9%, respectively. For the three and six months ended June 30, 2016, income tax expense was \$18.4 million and \$43.2 million, respectively, and the effective income tax rate was 35.8% for both periods. The reduction in the effective tax rate was due primarily to several tax settlements. These settlements decreased our liability for uncertain tax positions by \$15.7 million during the first quarter of 2017.

Dividend—On May 9, 2017, we announced the payment of future dividends had been suspended. The declaration and payment of all future dividends, if any, will be at the sole discretion of our Board of Directors. We funded the dividends paid in 2016 and the first three months of 2017 with cash generated by our operations. On March 2, 2017, we paid a \$0.225 per common share quarterly dividend. The total dividend paid was approximately \$18.8 million to stockholders of record as of the close of business on February 21, 2017.

Share Repurchase—Under a share repurchase program approved by the Company’s Board of Directors during the first quarter of 2016 authorizing the repurchase of up to an aggregate of \$75 million of outstanding common stock, the Company purchased 1,000,000 shares of common stock through the open market during the first quarter of 2016 for an aggregate purchase price of approximately \$22.0 million, which was funded with cash on hand. There were no shares repurchased during the second quarter of 2016 or the first and second quarters of 2017.

Assets Held for Sale—On June 21, 2016, we completed the sale of land, buildings and improvements which were previously classified as held for sale. Proceeds from the sale were \$38.8 million, excluding related expenses. In connection with this sale, we realized a pre-tax gain of approximately \$19.0 million. We also entered into a 12-year leaseback agreement for one of the buildings. This lease is classified as an operating lease and the related \$6.1 million gain, included in the \$19.0 million realized gain is being deferred and recognized over the lease term.

Recently Implemented Accounting Pronouncements—In March 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standard Update (“ASU”) 2016-09, *Compensation-Stock Compensation (Topic 718)*. The new guidance requires excess tax benefits and tax deficiencies to be recorded in the income statement when the awards vest or are settled. In addition, cash flows related to excess tax benefits are no longer separately classified as a financing activity apart from other income tax cash flows. The standard also allows us to repurchase more of an employee’s shares for tax withholding purposes without triggering liability accounting, clarifies that all cash payments made on an employee’s behalf for withheld shares should be presented as a financing activity on our consolidated cash flows statement, and provides an accounting policy election to account for forfeitures as they occur. Under the new guidance, we elected to change our forfeiture policy to recognize forfeitures of awards as they occur beginning January 1, 2017. The change in forfeiture policy was adopted using a modified-retrospective transition method. We recorded a cumulative-effect adjustment which increased our retained deficit by \$0.1 million upon transition on January 1, 2017. We elected to apply the presentation requirements for cash flows related to excess tax benefits prospectively. For the six months ended June 30, 2016, excess tax benefits on stock options recognized in additional paid-in capital was \$0.3 million. This is included in the “Proceeds from stock options and Employee Stock Purchase Plan (“ESPP”) shares” line in the condensed consolidated statement of cash flows. The impact of this standard on our consolidated financial statements at the time of implementation was not material, however, the impact on our provision for income taxes in future periods will be dependent on the market price of our common stock on vesting dates of restricted stock awards compared to the fair value of those awards when they were granted.

Recent Accounting Pronouncements—In January 2017, the FASB issued ASU 2017-04, *Intangibles – Goodwill and Other (Topic 350)*. This update addresses the subsequent measurement of goodwill and eliminates Step 2 from the goodwill impairment test. Under the amendments in this update, annual or interim goodwill impairment tests are to be performed by comparing the fair value of a reporting unit with its carrying amount. An impairment charge should be recognized for the amount by which the carrying amount exceeds the reporting unit's fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. Additionally, the income tax effects should be considered for any tax deductible goodwill on the carrying amount of the reporting unit when measuring the goodwill impairment loss. The amendment also eliminates the requirements for any reporting unit with a zero or negative carrying amount to perform a qualitative assessment and, if it fails that qualitative test, to perform Step 2 of the goodwill impairment test. Therefore, the same impairment assessment applies to all reporting units. The amendment requires disclosure of the amount of goodwill allocated to each reporting unit with a zero or negative carrying amount of net assets. The amendments in this update should be applied on a prospective basis. This amendment will be effective for us in January 2020. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company is in the process of assessing the impact of this standard on its consolidated financial statements.

In November 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows – Restricted Cash (Topic 230)*. The standard requires entities to include in their cash and cash-equivalent balances in the statement of cash flows those amounts that are deemed to be restricted cash and restricted cash equivalents. The ASU does not define the terms “restricted cash” and “restricted cash equivalents.” The amendment is effective for public business entities for fiscal years beginning after December 15, 2017 and interim periods within those fiscal years and is to be applied using a retrospective transition method to each period presented. Early adoption is permitted. Based on our preliminary assessment, we do not believe there will be a material impact to our consolidated statement of cash flows upon adoption.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows – Classification of Certain Cash Receipts and Cash Payments (Topic 230)*. The amendments in this update address eight specific cash flow issues with the objective of reducing the existing diversity in practice. This amendment is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. An entity that elects early adoption must adopt all of the amendments in the same period. The amendments in this update should be applied using a retrospective transition method to each period presented. If it is impracticable to apply the amendments retrospectively for some of the issues, the amendments for those issues would be applied prospectively as of the earliest date practicable. Based on our preliminary assessment, we do not believe there will be a material impact to our consolidated statement of cash flows upon adoption.

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments – Credit Losses (Topic 326)*. The amendments in this update will require a financial asset (or a group of financial assets) measured on an amortized cost basis to be presented at the net amount expected to be collected. This amendment is effective for public business entities for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted for fiscal years beginning after December 15, 2018. Adoption of this update is required through a cumulative-effect adjustment to retained deficit as of the beginning of the first reporting period in which the guidance is effective (that is, a modified-retrospective approach). The Company is in the process of assessing the impact of this standard on its financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. The amendments in this update will increase the transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. This amendment is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted. ASU 2016-02 is required to be applied with a modified retrospective approach to each prior reporting period presented. The Company is in the process of assessing the impact of this standard on its financial statements.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*. This standard requires the recognition of revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which a Company expects to be entitled in exchange for those goods or services. The new standard also requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. We plan to adopt ASU 2014-09 on January 1, 2018. The new standard can be adopted either retrospectively to each prior reporting period presented or as a cumulative-effect adjustment as of the date of adoption. We will likely adopt this accounting standard on a cumulative-effect method, which would result in an adjustment to retained earnings for the cumulative effect, if any, of applying the standard to contracts in process as of the adoption date. Based on our preliminary assessment, we do not believe there will be a material impact to our revenues upon adoption. We are continuing to evaluate the impacts of our pending adoption of this standard and our preliminary assessments are subject to change. Our implementation efforts are progressing as planned.

2. ACQUISITIONS

Callpointe

On May 2, 2017, we completed the acquisition of Callpointe.com, Inc. (“Callpointe”), a provider of custom patient communication services to the healthcare industry. The purchase price was approximately \$25.9 million in cash, net of cash acquired, and assumed liabilities. The acquisition was funded with cash on hand. This business is included in the Interactive Services reportable segment.

In the preliminary purchase price allocation, approximately \$17.1 million was allocated to goodwill, which is not deductible for income tax purposes, and \$12.7 million was allocated to other intangible assets. The primary factors that contributed to a purchase price resulting in the recognition of goodwill for the acquisition of Callpointe were the expansion of our interactive services further into the healthcare market, Callpointe’s complementary customer base and anticipated synergies which are expected to result in cost savings.

Vocus

On March 7, 2017, we completed the acquisition of the cloud collaboration practice and assets from Vocus Group (“Vocus”) in Australia for approximately \$4.0 million in cash. The acquisition was funded with cash on hand. This business is included in the Unified Communications Services reportable segment.

In the preliminary purchase price allocation, approximately \$1.2 million was allocated to goodwill, which is not deductible for tax purposes, and \$0.7 million was allocated to other intangible assets. The primary factors that contributed to a purchase price resulting in the recognition of goodwill were the expansion of our position and capabilities throughout the Asia-Pacific region and the anticipated synergies which are expected to result in an enhanced global support and cost structure.

911 ETC

On December 9, 2016, we completed the acquisition of 911 ETC, Inc. (“911 ETC”). 911 ETC is a leading provider of E911 solutions to the enterprise market space across the United States. The purchase price was approximately \$10.2 million in cash, net of cash acquired, plus assumed liabilities. The acquisition was funded with cash on hand. This business is included in the Safety Services reportable segment.

In the preliminary purchase price allocation, approximately \$5.0 million was allocated to goodwill, which is not deductible for income tax purposes, and \$6.5 million was allocated to other intangible assets. The primary factors that contributed to a purchase price resulting in the recognition of goodwill for the acquisition of 911 ETC were the expansion of our safety services further into the enterprise business space, their complementary customer base and anticipated synergies which are expected to result in cost savings.

Synrevoice

On March 14, 2016, we completed the acquisition of substantially all of the assets of Synrevoice Technologies, Inc. (“Synrevoice”). Synrevoice, based in Markham, Ontario, is a provider of messaging and notification services to the K-12 education and commercial markets in North America. The purchase price was approximately \$9.2 million and was funded with cash on hand. This business is included in the Interactive Services reportable segment.

Approximately \$4.7 million was allocated to goodwill, which is partially deductible for income tax purposes, and \$6.5 million was allocated to other intangible assets. The primary factors that contributed to a purchase price resulting in the recognition of goodwill for the acquisition of Synrevoice were the expansion of our interactive services further into the education vertical market and anticipated synergies which are expected to result in a more efficient and faster growing K-12 business in North America.

The following table summarizes the preliminary acquisition date estimated fair values of the assets acquired and liabilities assumed for Callpointe, Vocus and 911 ETC and the final acquisition date fair value of assets acquired and liabilities assumed for Synrevoice.

Acquisition costs incurred for prospective and completed acquisitions for the three months ended June 30, 2017 and 2016 were \$1.5 million and \$1.4 million, respectively. For the six months ended June 30, 2017 and 2016, these acquisition costs were \$2.8 million and \$2.5 million, respectively. These acquisition costs, which are included in selling, general and administrative expenses, exclude \$4.4 million of acquisition costs recognized by West related to the pending acquisition of West Corporation by certain funds managed by affiliates of Apollo Global Management, LLC.

The excess of the acquisition costs over the fair value of the assets acquired and liabilities assumed for the Callpointe, Vocus and 911 ETC purchases were assigned to goodwill based on preliminary estimates. We are in the process of completing the acquisition accounting for certain intangible assets and liabilities. The process of completing the acquisition accounting involves numerous time consuming steps for information gathering, verification and review. We expect to finalize this process within twelve months following the respective acquisition dates.

The highest outstanding balance during the six months ended June 30, 2017 and year ended December 31, 2016 was \$34.0 million and \$75.0 million, respectively. At June 30, 2017, we were in compliance with our financial debt covenants.

6. HEDGING ACTIVITIES

We are exposed to market risk from adverse changes in interest rates. Derivatives are used as part of our strategy to manage this risk. The Company does not use derivatives for trading or speculative purposes and currently does not have any derivatives that are not designated as hedges.

On July 26, 2016, we entered into four interest rate swaps, two 1-month LIBOR swaps with a combined beginning notional value of \$275.0 million and two 3-month LIBOR swaps with a combined beginning notional value of \$275.0 million, each with a maturity date of July 17, 2021. The 1-month LIBOR swaps were effective July 29, 2016, with no amortization or variable interest rate floor. The 3-month LIBOR swaps were effective as of June 30, 2017, with 1% amortization per year and a 75 basis points LIBOR floor. The contracts provide for the receipt of variable interest rate amounts from the counterparties in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional value.

The Company has elected to apply hedge accounting and has designated these interest rate swaps as cash flow hedges of interest payments on a portion of our variable rate term loan debt maturing in 2021 or later. The initial and periodic assessments of hedge effectiveness were performed using regression analysis.

Hedge ineffectiveness for cash flow hedges may impact net earnings when a change in the value of a hedge does not entirely offset the change in the value of the underlying hedged item. We do not exclude any component of the hedged instrument's gain or loss when assessing ineffectiveness. There was no ineffectiveness gain or loss recognized during the three months ended June 30, 2017. Ineffectiveness losses of approximately \$0.1 million were recognized during the six months ended June 30, 2017 and are recorded as an increase to interest expense. The ineffectiveness is due to a LIBOR rate floor that is included in the hedged debt but not in the related 1-month LIBOR swaps.

The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges are recorded in accumulated other comprehensive loss and will be reclassified into earnings, as interest expense, when interest payments are made on the related debt. The pre-tax unrealized gain associated with our interest rate swaps, which is deferred in accumulated other comprehensive loss at June 30, 2017 was \$10.8 million (\$6.7 million after taxes) and at December 31, 2016 was \$13.0 million (\$8.1 million after taxes). During the next 12 months, the Company estimates that an additional \$0.8 million will be reclassified as a decrease to interest expense.

As of June 30, 2017, the Company had the following outstanding interest rate derivatives that were designated as cash flow hedges of interest rate risk:

Interest Rate Derivative	Number of Instruments	Notional Value in Thousands
Interest Rate Swaps	Four	\$550,000

At June 30, 2017, the Company had 1-month and 3-month LIBOR-based debt in excess of the hedged notional value. The fixed interest rates on the 1-month and 3-month interest rate swaps range from 0.99530% to 1.50200%.

The Company has been in compliance with all financial debt covenants during the periods covered by this report.

7. FAIR VALUE DISCLOSURES

FASB guidance establishes a three-level fair value hierarchy based upon assumptions (inputs) used to price assets or liabilities. The three levels of inputs used to measure fair value are as follows:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities,
- Level 2 – Observable inputs other than those included within Level 1, such as quoted prices for similar assets and liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets, and
- Level 3 – Unobservable inputs for assets or liabilities reflecting our assumptions and best estimate of what inputs market participants would use in pricing the asset or liability.

The categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Following is a description of the valuation methodologies used for assets and liabilities measured at fair value.

Trading Securities (Asset). The assets held in the West Corporation Executive Retirement Savings Plan and the West Corporation Nonqualified Deferred Compensation Plan represent mutual funds, invested in debt and equity securities, classified as trading securities in accordance with the provisions of Accounting Standards Codification 320 *Investments—Debt and Equity Securities* considering the employee's ability to change the investment allocation of their deferred compensation at any time. Quoted market prices are available for these securities in an active market; therefore the fair value of these securities is determined by Level 1 inputs.

We evaluate classification within fair value hierarchy each reporting period. There were no transfers between any levels of the fair value hierarchy during the periods presented.

The carrying amount of the trading securities of \$69.7 million and \$63.5 million at June 30, 2017 and December 31, 2016, respectively, were equal to the quoted prices in active markets for identical assets.

Derivatives. Our derivative instruments consist of interest rate swap assets of \$12.0 million and interest rate swap liabilities of \$0.2 million as of June 30, 2017 and interest rate swap assets of \$14.5 million and interest rate swap liabilities of \$0.3 million as of December 31, 2016 (see Note 6). The fair value of these Level 2 derivative instruments was determined using readily available market observable inputs such as interest rate curves, discount factors and implied volatilities.

Long-term Debt (including current installments). The fair value of our 2021 Senior Secured Notes, based on market quotes, which we determined to be Level 2 inputs, at June 30, 2017 and December 31, 2016 was approximately \$408.0 million and \$411.5 million, respectively, compared to the carrying amount of \$400.0 million for both dates. The fair value of our 2022 Senior Notes, based on market quotes, which we determined to be Level 2 inputs, at June 30, 2017 and December 31, 2016 was approximately \$1,010.0 million and \$967.5 million, respectively, compared to the carrying amount of \$1.0 billion for both dates.

The fair value of our senior secured term loan facilities was estimated using current market quotes on comparable debt securities from various financial institutions. All of the inputs used to determine the fair market value of our senior secured term loan facilities are Level 2 inputs and obtained from an independent source. The fair value of our senior secured term loan facilities at June 30, 2017 was approximately \$1,120.1 million compared to the carrying amount of \$1,118.7 million. The fair value of our senior secured term loan facilities at December 31, 2016 was approximately \$1,128.6 million compared to the carrying amount of \$1,124.4 million.

The fair value of our senior secured A term loans based on recent trading activity, which we determined to be Level 2 inputs, at June 30, 2017 was approximately \$628.9 million compared to the carrying amount of \$629.7 million. The fair value of our senior secured A term loans at December 31, 2016 was approximately \$649.8 million compared to the carrying amount of \$650.7 million.

Other. A Level 3 liability of \$5.3 million and \$4.6 million was recognized as of June 30, 2017 and December 31, 2016, respectively, for contingent consideration related to the acquisition of ClientTell. The liability was measured at fair value using a Monte Carlo simulation approach and was based on estimated revenues and the present value of related payments over the earn-out period.

8. STOCK-BASED COMPENSATION

Pending Merger Treatment of Outstanding Equity Awards

The Merger Agreement provides that, with respect to all outstanding options, stock unit awards and restricted stock awards under the Company's equity plans, as a result of the Merger:

- each option will be fully vested and cancelled, and each holder of a cancelled Company option will receive a payment in cash equal to the product of (i) the total number of Shares subject to the cancelled Company option and (ii) the excess, if any, of (A) the Merger Consideration over (B) the exercise price per Share subject to the cancelled Company option, without interest, less any required tax withholding (provided, however, that any Company option with respect to which the exercise price per share is equal to or greater than the Merger Consideration will be cancelled in exchange for no consideration); and

- each stock unit and restricted stock award (other than notional shares credited under the West Corporation Nonqualified Deferred Compensation Plan) will be converted into the right to receive a payment in cash equal to the sum of (i) the Merger Consideration multiplied by the number of Shares subject to each such award and (ii) the dividend equivalents accrued on such award prior to the closing date, and to the extent required by an existing award agreement such cash amount will be held in escrow and become vested and payable in accordance with the terms of the awards on the vesting schedule set forth in the awards.

For any stock unit awards that are subject to performance-based vesting conditions, the Merger Agreement provides that the number of Shares subject to such awards that are earned based on performance will be determined as of the closing date in accordance with the terms of the applicable award agreements, which the Company may amend between signing and closing to provide that, for all relevant periods, the performance goals will be deemed to have been satisfied at 100% of the target level.

Any notional shares accrued under the West Corporation Nonqualified Deferred Compensation Plan will be valued based on the Merger Consideration and will be notionally reinvested in one or more other "measurement funds" (as defined under the West Corporation Nonqualified Deferred Compensation Plan) as determined by the Company prior to the effective time of the Merger until such accounts are distributed to participants in connection with the termination and pay-out of the Company's existing account balance deferred compensation plans on the later to occur of (i) December 31, 2017 and (ii) the closing date, in accordance with the terms of such plan and applicable law or such other date as may be established by the Company in accordance with such plan and applicable law.

2006 Executive Incentive Plan

Stock options granted under the West Corporation 2006 Executive Incentive Plan ("2006 EIP") prior to 2012 vest over a period of five years, with 20% of the stock option becoming exercisable on each of the first through fifth anniversaries of the grant date. Stock options granted under the 2006 EIP in 2012 and 2013 vest over a period of four years, with 25% of the stock option becoming exercisable on each of the first through fourth anniversaries of the grant date. Once an option has vested, it generally remains exercisable until the tenth anniversary of the grant date so long as the participant continues to provide services to the Company.

2013 Long-Term Incentive Plan

Prior to the completion of our initial public offering, we adopted the 2013 Long-Term Incentive Plan, which was amended and restated in 2014 (as amended, the "2013 LTIP"). The 2013 LTIP is intended to provide our officers, employees, non-employee directors and consultants with added incentive to remain employed by or perform services for us and align such individuals' interests with those of our stockholders. Under the terms of the 2013 LTIP, 8,500,000 shares of common stock were made available for stock options, restricted stock or other types of equity awards, subject to adjustment for stock splits and other similar changes in capitalization. The number of available shares under the 2013 LTIP is reduced by the aggregate number of shares underlying each award. To the extent that shares subject to an outstanding award granted under the 2013 LTIP are not issued or delivered by reason of the expiration, termination, cancellation or forfeiture of such award or by reason of the settlement of such award in cash, then such shares will again be available under the 2013 LTIP (excluding shares withheld by the Company to pay withholding taxes related to an award under the 2013 LTIP).

Stock options granted under the 2013 LTIP vest over a period of four years, with 25% of the stock option becoming exercisable on each of the first through fourth anniversaries of the grant date. Once an option has vested, it generally remains exercisable until the tenth anniversary of the grant date so long as the participant continues to provide services to the Company. Restricted stock and restricted stock units granted under the 2013 LTIP, which are time-vested vest over a period of three or four years (excluding awards to directors which vest over a six to 12 month period), with a ratable portion of the restricted stock or restricted stock unit award vested on each anniversary of the grant date until fully vested, unless earlier forfeited as a result of termination of service to the Company prior to the applicable vesting date. Performance-based restricted stock and restricted stock units granted under the 2013 LTIP vest over a performance period of three or four years. Accrued dividends are payable in respect of shares of unvested restricted stock and unvested restricted stock units upon vesting of the restricted stock and restricted stock units in accordance with the terms of the applicable award agreement.

Restricted Shares, Restricted Stock Units and Performance-Based Restricted Stock Units

During the six months ended June 30, 2017, pursuant to agreements with our non-employee directors who are not affiliated with our former sponsors, we issued 16,444 shares of common stock with an aggregate fair value of approximately \$400,000. These shares vest on the one-year anniversary of the date of grant.

WEST CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

During the six months ended June 30, 2017, we issued 471,120 time-vested restricted stock awards and restricted stock units to certain key employees. These awards vest ratably with 25% of the award vesting on each of the first through fourth anniversaries of the award date. The fair value of these awards at the date of grant was approximately \$11.3 million and will be recognized over the remaining vesting period of approximately 3.7 years as of June 30, 2017. During the six months ended June 30, 2017, 96,917 restricted stock awards and restricted stock units vested. 61,114 of these awards are outstanding after 35,803 were withheld in settlement of related payroll taxes.

During the six months ended June 30, 2017, we issued 192,030 performance-based restricted stock units to certain key executives. Each performance-based restricted stock unit represents a contingent right to receive between zero and 1.75 shares of West common stock. These performance-based restricted stock units will vest based on the Company's total shareholder return ("TSR") percentile ranking over the applicable performance period as compared to the TSR of companies included in the Russell 2000 on both the first and last day of the performance period, which began on March 1, 2017, and ends on February 29, 2020. The fair value of these awards at the date of grant was approximately \$5.2 million and will be recognized over the remaining vesting period of approximately 2.7 years as of June 30, 2017.

2013 Employee Stock Purchase Plan

In 2013, we implemented the 2013 Employee Stock Purchase Plan ("ESPP"), under which the sale of 1.0 million shares of our common stock initially had been authorized and reserved. On January 28, 2016 the Company's Board of Directors approved an amendment to the ESPP to increase the number of shares available under the ESPP by an additional 1.0 million shares of common stock. The amendment was approved by a vote of the stockholders at our May 17, 2016 annual meeting. Employees may designate up to 50% of their annual compensation for the purchase of stock, subject to a per person limit of 2,000 shares in any offering period or calendar year. The price for shares purchased under the ESPP is 85% of the market closing price on the last day of the quarterly purchase period. No employee will be authorized to purchase common stock through the ESPP if, immediately after the purchase, the employee (or any other person whose stock would be attributed to such employee under U.S. tax law) would own stock and/or hold outstanding options to purchase stock possessing 5% or more of the total combined voting power or value of all classes of stock of the Company or of any parent of the Company or any subsidiary. In addition, no participant will be entitled to purchase stock under the ESPP at a rate which, when aggregated with his or her rights to purchase stock under all other employee stock purchase plans of the Company and its subsidiaries, exceeds \$25,000 in fair market value, determined as of the date of grant (or such other limit as may be imposed by U.S. tax law), for each calendar year in which any option granted to the participant under any such plans is outstanding at any time. During the six months ended June 30, 2017, 173,249 shares were issued under the ESPP. As of June 30, 2017, 1,119,803 shares had been issued under the ESPP since the plan's inception. In accordance with the Merger Agreement, effective July 1, 2017, the ESPP has been suspended.

For the three and six months ended June 30, 2017, we recognized compensation for the ESPP of \$0.3 million and \$0.7 million, respectively. For the three and six months ended June 30, 2016, we recognized compensation for the ESPP of \$0.3 million and \$0.7 million, respectively.

Share-Based Compensation Expense

For the three and six months ended June 30, 2017, share-based compensation expense was \$6.1 million and \$11.5 million, respectively. For the three and six months ended June 30, 2016, share-based compensation expense was \$6.2 million and \$13.8 million, respectively.

At June 30, 2017 and 2016, there was approximately \$0.2 million and \$0.7 million, respectively, of unrecorded and unrecognized compensation expense, adjusted for estimated forfeitures, related to unvested share-based compensation on stock options under the 2006 EIP and 2013 LTIP, respectively, which will be recognized over the remaining vesting period of approximately 0.6 years as of June 30, 2017.

At June 30, 2017 and 2016, there was approximately \$40.6 million and \$45.5 million, respectively, of unrecorded and unrecognized compensation expense, related to unvested share-based compensation on restricted stock under the 2013 LTIP, which will be recognized over the remaining vesting period of approximately 2.3 years as of June 30, 2017.

9. EARNINGS PER SHARE

Diluted earnings per share reflects the potential dilution that could result if options or other contingently issuable shares were exercised or converted into common stock and notional shares from the Nonqualified Deferred Compensation Plan were granted. Diluted earnings per common share assumes the exercise of stock options using the treasury stock method.

(Amounts in thousands, except per share amounts)	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Earnings per common share-basic	\$ 0.54	\$ 0.40	\$ 1.18	\$ 0.94
Earnings per common share-diluted	\$ 0.52	\$ 0.39	\$ 1.16	\$ 0.92
Weighted average number of shares outstanding:

Common shares	1,971	1,683	1,910	1,551
Diluted common shares	85,527	84,281	85,369	84,425

Diluted earnings per share is computed using the weighted average number of common shares and dilutive potential common shares outstanding during the period. Dilutive potential common shares result from the assumed exercise of outstanding stock options, by application of the treasury stock method that has a dilutive effect on earnings per share. At June 30, 2017 and 2016, 1,820,262 and 2,177,738 stock options, respectively, were outstanding with an exercise price equal to or exceeding the market value of our common stock and were therefore excluded from the computation of shares contingently issuable upon exercise of the options.

During each of the six months ended June 30, 2017 and 2016, our largest 100 clients accounted for approximately 43% and 42% of our total revenue, respectively. During the three and six months ended June 30, 2017 and 2016, no client accounted for more than 6% of our aggregate revenue.

12. COMMITMENTS AND CONTINGENCIES

In the ordinary course of business, we and certain of our subsidiaries are defendants in various litigation matters and are subject to claims from our clients for indemnification, some of which may involve claims for damages that are substantial in amount.

Accruals have been made with respect to these matters, where appropriate, which are reflected in the Company's consolidated financial statements. The Company may enter into discussions regarding settlement of these matters, and may enter into settlement agreements, if it believes settlement is in the best interest of the Company. The matters discussed below, if decided adversely to or settled by the Company, individually or in the aggregate, may result in liability material to the Company's financial condition and/or results of operations.

There are asserted claims against the Company where an unfavorable outcome is considered to be reasonably possible. These claims can generally be categorized in the following areas: (1) commercial disputes with customers or other business partners, which may involve assertion of a breach of the Company's legal or contractual obligations to the customer or a claim for indemnification for third-party losses; and (2) other matters which may include issues such as employment related claims. The Company's estimates of the range of reasonably possible losses in excess of any amounts accrued for such claims is \$0 to \$24 million for all of the matters described above. The estimated range of reasonably possible losses is based on information currently available and involves elements of judgment and significant uncertainties. As additional information becomes available and the resolution of the uncertainties becomes more apparent, it is possible that actual losses may exceed even the high end of the estimated range.

In connection with the transactions contemplated by the Merger Agreement between the Company and affiliates of certain funds managed by affiliates of Apollo Global Management, LLC, five putative class action lawsuits were filed between June 26, 2017 and June 29, 2017 in the United States District Court for the District of Nebraska: *Scarantino v. West Corp., et al.*, 4:17-cv-03080-JMG-CRZ (D. Neb.); *Wyant v. West Corp., et al.*, 4:17-cv-03081-JMG-CRZ (D. Neb.); *Wilson v. West Corp., et al.*, 8:17-cv-00228-JMG-CRZ (D. Neb.); *Bushansky v. West Corp., et al.*, 4:17-cv-03083-JMG-CRZ (D. Neb.); and *Katz v. West Corp., et al.*, 4:17-cv-03084-JMG-CRZ (D. Neb.). The lawsuits were each filed against West and the members of the Board, and two of the lawsuits were additionally filed against Apollo Global Management and certain affiliates of funds managed by Apollo Global Management, Mount Olympus Holdings, Inc. and Olympus Merger Sub, Inc. Each alleges that the proxy statement filed in connection with the Merger violated federal securities laws in purportedly omitting to disclose information necessary to make the statements therein not materially false or misleading, including, among other things, certain financial information. One of the lawsuits additionally alleges that our directors breached their fiduciary duties in, among other things, purportedly conducting an inadequate sales process that resulted in an offer that purportedly undervalues the Company, and in filing the purportedly misleading proxy statement. On July 19, 2017, West supplemented its disclosures with respect to the transaction. On July 19, 2017, the plaintiffs in these five actions entered into a Memorandum of Understanding with the defendants that provides for, among other things, the voluntary dismissal of the actions on mootness grounds with prejudice as to the named plaintiffs.

In connection with the March 3, 2015 sale of certain of our agent-based businesses to Alorica Inc., we agreed to indemnify the buyer, up to the full purchase price of \$275.0 million, with respect to the equity interests of the companies we sold, title to the equity and assets sold and the authority of the Company to sell the equity and assets and certain other covenants, which indemnification shall generally survive until expiration of the applicable statute of limitations.

Parent and Sub are affiliates of certain funds managed by affiliates of Apollo Global Management, LLC. Subject to the terms and conditions of the Merger Agreement, Sub will be merged into West (the “Merger”), with West surviving the Merger as a wholly-owned subsidiary of Parent. The Merger Agreement and the consummation of the transactions contemplated by the Merger Agreement have been unanimously approved by the Company’s board of directors.

Pursuant to the Merger Agreement, at the effective time of the Merger (the “Effective Time”), each share of common stock of the Company (a “Share”) issued and outstanding immediately prior to the Effective Time (other than (i) Shares held by stockholders of the Company who have properly exercised and perfected appraisal rights under Delaware law and (ii) Shares that are held in the treasury of the Company or owned of record by any wholly-owned subsidiary of the Company, Parent or any wholly-owned subsidiary of Parent) will be converted into the right to receive \$23.50 per Share in cash, without interest, subject to any applicable withholding taxes.

The consummation of the Merger is subject to the satisfaction or waiver of specified closing conditions, including (i) the approval of the Merger by the holders of a majority of the voting power of the outstanding Shares entitled to vote thereon, (ii) the expiration or termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended (the “HSR Act”), and the receipt of certain required foreign antitrust approvals, (iii) receipt of approval by the Federal Communications Commission, (iv) receipt of certain required state telecommunications regulatory approvals, (v) the absence of the occurrence of a Company Material Adverse Effect (as defined in the Merger Agreement) after the date of the Merger Agreement and (vi) other customary closing conditions. The consummation of the Merger is not subject to a financing condition. Early termination of the waiting period under the HSR Act was granted on June 6, 2017 and the required foreign antitrust approvals were obtained in July 2017. The Company received approval from the Federal Communications Commission in July 2017. On July 26, 2017, the Company’s stockholders approved the Merger. The Merger remains subject to the closing conditions described above (to the extent not already satisfied) and is expected to close during the second half of 2017.

Financial Operations Overview

Revenue

Services in Unified Communications Services are generally billed, and revenue recognized, on a per participant minute basis or, in the case of license arrangements, generally billed in advance and revenue recognized ratably over the service life period. We also charge clients for additional features, such as conference call recording, transcription services or professional services. Some Unified Communications Services revenue is recognized on a “Per User Per Month” or network circuit basis. Telecom Services revenue is primarily comprised of switched access charges for toll-free origination services, which are paid primarily by interexchange carriers. Revenue is billed monthly and recognized based on usage.

Safety Services revenue is generated primarily from monthly fees and recognized as billed, based on the number of billing telephone numbers and cell towers covered under contract. In addition, product sales that may include hardware, software, and professional services (installation, training and project management) are generally recognized when shipment of the hardware and software has occurred and for professional services when client acceptance of a fully functional system is received. Contracts for annual recurring services such as support and maintenance agreements and contracts where guaranteed minimums exist are generally billed in advance and are recognized as revenue ratably (on a monthly basis) over the contractual periods.

Services in Interactive Services are generally billed, and revenue recognized, on a per call, per message or per minute basis, or in the case of subscription arrangements, generally billed in advance and revenue recognized ratably over the contract term.

Services in Specialized Agent Services are generally billed based on hours of input, number of contacts, number of personnel assigned, on a contingent basis or recognized in the month collection payments are received based upon a percentage of cash collected or other agreed upon contractual parameters. Revenue for healthcare advocacy services is generally based on “Per Employee Per Month” fees charged under prepayment agreements for services and is recognized ratably over the service period.

Cost of Services

The principal component of cost of services is our variable telephone expense, labor related expenses and commissions for our sales force. We generally pay commissions to sales professionals on both new sales and incremental revenue generated from existing clients.

Selling, General and Administrative Expenses

The principal component of our selling, general and administrative expenses (“SG&A”) is salary and benefits for our sales force, client support staff, technology and development personnel, senior management and other personnel involved in business support functions. SG&A also includes certain fixed telephone costs as well as other expenses that support the ongoing operation of our business, such as facilities costs, certain service contract costs, depreciation, maintenance and amortization of finite-lived intangible assets.

Key Drivers Affecting Our Financial Position and Results of Operations

Factors Related to our Indebtedness. On June 17, 2016, we completed a partial refinancing of our outstanding indebtedness through an amendment (“the Seventh Amendment”) to our term and revolving senior secured credit facilities (“Senior Secured Credit Facilities”) and a private offering of \$400 million aggregate principal amount of 4.75% senior secured notes due 2021 (the “2021 Senior Secured Notes”). The amendment to our Senior Secured Credit Facilities, among other things, established commitments for a new seven-year senior secured term loan B-12 facility in an aggregate principal amount of \$870 million (the “2023 Maturity Term Loans”), a new five-year senior secured term loan A-2 facility in an aggregate principal amount of \$650 million (the “2021 Maturity A Term Loans”), and a new five-year senior secured term loan B-14 facility in an aggregate principal amount of \$260 million (the “2021 Maturity B Term Loans”). We used the proceeds of the new notes and new facilities, together with cash on hand, to repay \$1,678 million of our existing term loan B-10 facility (the “2018 Maturity Term Loans”), \$252.6 million on the term A-1 facility (the “2019 Maturity Term Loans”) and all \$249.4 million outstanding on the term loan B-11 facility (the “B-11 Term Loans”). In addition, the Seventh Amendment provided for an extended senior secured revolving credit facility with a maturity date of June 17, 2021 in an aggregate amount of \$300 million.

On December 19, 2016, we completed an eighth amendment to our Senior Secured Credit Facilities (the “Eighth Amendment”). With respect to our term loans, the Eighth Amendment provided for:

- an interest rate margin applicable to the 2023 Maturity Term Loans equal to 2.50% for LIBOR rate loans and 1.50% for base rate loans, subject to a 0.75% interest rate floor for the LIBOR component of LIBOR rate 2023 Maturity Term Loans, and subject to a 1.75% interest rate floor for the base rate component of base rate 2023 Maturity Term Loans; and
- an interest rate margin applicable to the 2021 Maturity B Term Loans equal to 2.50% for LIBOR rate loans, and 1.50% for base rate loans, subject to a 0.0% interest rate floor for the LIBOR component of LIBOR rate 2021 Maturity B Term Loans, and subject to a 0.0% interest rate floor for the base rate component of base rate 2021 Maturity B Term Loans.

Acquisition Activities. Identifying and successfully integrating acquisitions of value-added service providers has been a key component of our growth strategy. We have developed an internal capability to source, evaluate and integrate acquisitions that we believe has created value for stockholders. Since 2002, we have invested approximately \$3.0 billion in strategic acquisitions.

During the six months ended June 30, 2017, we closed two acquisitions for an aggregate purchase price of \$29.9 million. On March 7, 2017, we completed the acquisition of the cloud collaboration practice and assets from Vocus Group (“Vocus”). Results from this business have been integrated into our Unified Communications Services reportable segment. On May 2, 2017, we completed the acquisition of Callpointe, a provider of automated appointment messaging services for healthcare providers. Results from this business have been integrated into our Interactive Services reportable segment. Both acquisitions have been included in our financial statements since their respective acquisition dates.

- Our revenue decreased \$8.0 million, or 1.4%, during the three months ended June 30, 2017 compared to revenue during the three months ended June 30, 2016. This decrease was due to a decrease in conferencing revenue partially offset by growth in UCaaS and all other operating segments
- Our revenue decreased \$6.2 million, or 0.5%, during the six months ended June 30, 2017 compared to revenue during the six months ended June 30, 2016. This decrease was partially offset by growth in UCaaS and all other operating segments

This decrease was primarily due to the timing of collections on accounts receivable and increased income tax payments of \$11.9 million primarily related to tax audit settlements.
- Our earnings per share-diluted was \$0.52 during the three months ended June 30, 2017 compared to \$0.39 during the three months ended June 30, 2016. Results of Operations

Comparison of the Three and Six Months Ended June 30, 2017 and 2016

Revenue: The tables below summarize the changes in our revenue for the three and six months ended June 30, 2017 compared to the three and six months ended June 30, 2016.

	Amounts in Millions	Contribution to Growth %
Revenue for the three months ended June 30, 2016	\$ 582.4	
Revenue from acquired entities	3.3	0.6%
Estimated impact of foreign exchange rates	(4.0)	(0.7)%
Adjusted organic growth, net	(7.3)	(1.3)%
Revenue for the three months ended June 30, 2017	<u>\$ 574.4</u>	<u>(1.4)%</u>

Total revenue for the three months ended June 30, 2017 decreased approximately \$8.0 million, or 1.4%, to \$574.4 million from \$582.4 million for the three months ended June 30, 2016. During the three months ended June 30, 2017, we experienced lower revenue from our on-demand automated conferencing services and operator-assisted conferencing products. Conferencing clients also migrated from higher priced solutions, such as operator-assisted calls, to lower priced automated conferencing services and reduced add-on services. Our non-conferencing businesses grew approximately 8.7%, with particularly strong results in our safety services, healthcare advocacy and interactive services businesses. The decrease in total revenue was partially offset by revenue of \$3.3 million from the acquisitions of 911 ETC, Vocus and Callpointe.

Foreign exchange rates had a negative impact of approximately \$4.0 million on our revenue for the three months ended June 30, 2017 when comparing the foreign exchange rates in place during this quarter to those in place during the three months ended June 30, 2016.

Our consolidated revenues and expenses are subject to variations caused by the net effect of foreign currency translation due to our international operations. It is difficult to predict the future fluctuations of foreign exchange rates and how those fluctuations will impact our Condensed Consolidated Statements of Income. Our revenues and expenses from our international operations are generally denominated in local currencies, therefore, the impact of currency fluctuations on our operating income and operating margin is partially mitigated. In order to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency fluctuations, we compare the percentage change in the results from one period to another period using constant currency presentation. The constant currency growth rates are calculated by translating the 2017 results at the 2016 average exchange rates. Constant currency growth rates are a non-GAAP measure.

Adjusted organic growth, net is a non-GAAP measure that excludes revenue from acquired entities and the estimated impact of foreign currency exchange rates. We believe adjusted organic revenue growth, net provides a useful measure of growth in our ongoing business.

	Amounts in Millions	Contribution to Growth %
Revenue for the six months ended June 30, 2016	\$ 1,153.2	
Revenue from acquired entities	5.6	0.5%

Adjusted organic growth, net	(3.4)	(0.3)%
Revenue for the six months ended June 30, 2017	<u>\$ 1,146.9</u>	<u>(0.5)%</u>

Total revenue for the six months ended June 30, 2017 decreased approximately \$6.2 million, or 0.5%, to \$1,146.9 million from \$1,153.2 million for the six months ended June 30, 2016. During the six months ended June 30, 2017, we experienced lower revenue from our on-demand automated conferencing services and operator-assisted conferencing products. Conferencing clients also migrated from higher priced solutions, such as operator-assisted calls, to lower priced automated conferencing services and reduced add-on services. This decrease was partially offset by growth in our non-conferencing businesses, which increased approximately 8.6%, with particularly strong results in our safety services, healthcare advocacy and interactive services businesses. During the six months ended June 30, 2017, the acquisitions of Synrevoice, 911 ETC, Vocus and Callpointe contributed an additional \$5.6 million to consolidated revenue.

Foreign exchange rates had a negative impact of approximately \$8.5 million on our revenue for the six months ended June 30, 2017 when comparing the foreign exchange rates in place during these six months to those in place during the six months ended June 30, 2016.

NM—Not Meaningful

During the three months ended June 30, 2017, Unified Communications Services revenue decreased \$21.6 million, or 5.8%, to \$348.5 million from \$370.2 million for the three months ended June 30, 2016. The revenue decrease is primarily due to a decline in conferencing revenue and the negative impacts of foreign exchange rates of approximately \$4.0 million, partially offset by growth in the UCaaS and telecom services lines of business. The acquisition of Vocus contributed revenue of \$1.0 million to the UCaaS line of business.

Conferencing revenue declined primarily due to lower revenue from automated conferencing services, operator-assisted conferencing and web services, partially offset by growth in streaming services. Automated conferencing services, which accounts for just over half of the Unified Communications Services revenue, decreased due to a reduction in average rate per minute of approximately 7.8% and a decrease in the volume of minutes of 3.2%. Average rate per minute for automated conferencing services declined due to price compression, product mix and an increasing shift of minutes to VoIP access, which has a lower price point due to the lower cost to provide VoIP access. Using constant currency foreign exchange rates, our average rate per minute for automated conferencing services declined by approximately 7.0% for the three months ended June 30, 2017. In addition, operator-assisted revenue declined due to clients purchasing fewer call features and migrating operator-assisted calls to lower cost solutions.

During the three months ended June 30, 2017, Safety Services revenue increased \$6.0 million, or 8.1%, to \$80.4 million from \$74.4 million for the three months ended June 30, 2016. The increase was primarily due to sales to customers adopting new technologies and \$1.0 million in revenue from the December 2016 acquisition of 911 ETC.

During the three months ended June 30, 2017, Interactive Services revenue increased \$5.9 million, or 8.1%, to \$79.2 million from \$73.2 million for the three months ended June 30, 2016. The May 2017 acquisition of Callpointe contributed \$1.3 million of the increase in revenue. The remaining increase was primarily due to new clients and increased volumes from existing clients, across multiple vertical markets, including commercial and healthcare, partially offset by price compression.

During the three months ended June 30, 2017, Specialized Agent Services revenue increased \$1.9 million, or 2.8%, to \$69.4 million from \$67.5 million for the three months ended June 30, 2016. This increase in revenue was primarily due to mid-single-digit revenue growth in our healthcare advocacy and cost management services due to increased volume, favorable product and customer mix, and higher recoveries. Revenue generation services revenue was flat compared to the three months ended June 30, 2016.

During the three months ended June 30, 2017, our international revenue was \$108.4 million a decrease of 11.9% over the three months ended June 30, 2016. On a constant currency basis, our international revenue declined 8.7% during the three months ended June 30, 2017 compared to the three months ended June 30, 2016. Excluding the acquisition of Vocus, constant currency international revenue declined by 9.4% due primarily to a decline in conferencing minutes and average rate per minute in the EMEA and APAC regions.

During the three months ended June 30, 2017 and 2016, our largest 100 clients accounted for approximately 42% and 41% of our total revenue, respectively. In each of these periods, no client accounted for more than 6% of our aggregate revenue.

During the six months ended June 30, 2017, Unified Communications Services revenue decreased \$33.3 million, or 4.5%, to \$699.6 million from \$732.9 million for the six months ended June 30, 2016. The revenue decrease is primarily due to a decline in conferencing revenue and the negative impacts of foreign exchange rates of approximately \$8.5 million, partially offset by growth in the UCaaS and telecom services lines of business. The acquisition of Vocus contributed revenue of \$1.2 million to the UCaaS line of business.

Conferencing revenue declined primarily due to lower revenue from automated conferencing services, operator-assisted conferencing and web services, partially offset by growth in streaming services. Automated conferencing services, which accounts for just over half of the Unified Communications Services revenue, decreased due to a reduction in average rate per minute of approximately 7.9% and a decrease in the volume of minutes of 0.6%. Average rate per minute for automated conferencing services declined due to price compression, product mix and an increasing shift of minutes to VoIP access, which has a lower price point due to the lower cost to provide VoIP access. Using constant currency foreign exchange rates, our average rate per minute for automated conferencing services declined by approximately 6.8% for the six months ended June 30, 2017. In addition, operator-assisted revenue declined due to clients purchasing fewer call features and migrating operator-assisted calls to lower cost solutions.

The acquisitions of Callpointe and Synvoice contributed \$2.6 million of the increase in revenue. The remaining increase was primarily due to new clients and increased volumes from existing clients, across multiple vertical markets, partially offset by price compression.

Operating income decreased \$21.2 million, or 9.1%, to \$210.8 million for the six months ended June 30, 2017 from \$232.0 million for the six months ended June 30, 2016. The decrease in operating income is primarily due to the sale of the buildings last year previously discussed, partially offset by the results of cost savings initiatives. In addition to the \$4.6 million negative impact of the mark-to-market adjustment and the \$3.9 million change in foreign currency losses, total operating income declined due to lower operating income in the Unified Communications Services segment resulting from the revenue decline in conferencing, partially offset by strong operating performance in Safety Services and Interactive Services. As a percentage of revenue, operating income decreased to 18.4% for the six months ended June 30, 2017 from 20.1% for the six months ended June 30, 2016.

Other income (expense): Other income (expense) includes interest expense from borrowings under credit facilities and outstanding notes, the aggregate foreign exchange gain (loss) on affiliate transactions denominated in currencies other than the functional currency, expenses, net of recoveries, of transition service agreements in connection with the sale of certain of our agent-based businesses and interest income from short-term investments.

Other expense for the three months ended June 30, 2017 was \$35.2 million compared to \$71.7 million for the three months ended June 30, 2016. Other expense for the six months ended June 30, 2017 was \$67.7 million compared to \$111.3 million for the six months ended June 30, 2016. Other expense for the three and six months ended June 30, 2016 included \$35.2 million of accelerated amortization of deferred financing costs as a result of our refinancing and accelerated debt principal prepayments. Interest expense for the three and six months ended June 30, 2017 was \$36.5 million and \$71.7 million, respectively, compared to \$37.7 million and \$76.5 million, respectively, for the three and six months ended June 30, 2016.

During the three and six months ended June 30, 2017, we recognized losses of \$1.2 million and \$1.9 million, respectively, on affiliate transactions denominated in foreign currencies. During the three and six months ended June 30, 2016, we recognized losses of \$0.7 million and \$3.3 million, respectively, on affiliate transactions denominated in foreign currencies.

During the three and six months ended June 30, 2017, we recognized gains of \$2.4 million and \$5.7 million, respectively, in marking the investments in our non-qualified retirement plans to market. During the three and six months ended June 30, 2016 we recognized a gain of \$1.1 million in each period in marking the investments in our non-qualified retirement plans to market. Mark-to-market gains or losses, recognized in other income, on the investments in our non-qualified retirement plans are offset by additional or reduced compensation expense related to the non-qualified retirement plans that is recorded in Corporate other unallocated SG&A expense.

Net Income: Our net income increased \$11.8 million for the three months ended June 30, 2017 to \$44.8 million from \$33.0 million for the three months ended June 30, 2016. The increase in net income was driven primarily by the \$14.3 million net income impact of the accelerated amortization of deferred financing costs, \$35.2 million pre-tax, partially offset by the \$12.8 million pre-tax gain recognized on the sale of buildings in 2016.

For the three months ended June 30, 2017, net income includes a provision for income tax expense at an effective rate of approximately 33.6% compared to 35.8% for the three months ended June 30, 2016.

Our net income increased \$21.3 million for the six months ended June 30, 2017 to \$98.9 million from \$77.5 million for the six months ended June 30, 2016. The net impact on net income from the accelerated amortization and sale of the buildings in 2016 was a reduction of \$14.3 million in the 2016 period. Net income includes a provision for income tax expense at an effective rate of approximately 30.9% for the six months ended June 30, 2017 compared to 35.8% for the six months ended June 30, 2016. The reduction in the effective tax rate was due primarily to several tax settlements impacting the balance in our uncertain tax position liability.

Earnings per common share: Earnings per common share-basic and diluted for the three months ended June 30, 2017 were \$0.54 and \$0.52, respectively, compared to earnings per common share-basic and diluted for the three months ended June 30, 2016 of \$0.40 and \$0.39, respectively. Earnings per common share-basic and diluted for the six months ended June 30, 2017 were \$1.18 and \$1.16, respectively, compared to earnings per common share-basic and diluted for the six months ended June 30, 2016 of \$0.94 and \$0.92, respectively.

Liquidity and Capital Resources

We have historically financed our operations and capital expenditures primarily through cash flows from operations supplemented by borrowings under our senior secured credit facilities, revolving credit facilities and asset securitization facilities. In March 2015, we filed a registration statement with the Securities and Exchange Commission using a shelf registration process. As permitted under the registration statement, we may, from time to time, sell shares of our common stock, as market conditions permit, to finance our operations and capital expenditures or provide additional liquidity.

The Company's Board of Directors has approved a share repurchase program under which the Company may repurchase up to an aggregate of \$75.0 million of its outstanding common stock of which \$53.0 million remains unused. Purchases under the program may be made from time to time through open market purchases, block transactions or privately negotiated transactions. The Company historically has funded the program using its cash on hand and cash generated from operations. The program may be suspended or discontinued at any time without prior notice. Pursuant to the terms of the Merger Agreement, the Company may not repurchase its shares without the prior consent of Parent.

Our current and anticipated uses of our cash, cash equivalents and marketable securities are to fund operating expenses, acquisitions, capital expenditures, interest payments, tax payments and repay principal on debt.

The following table summarizes our net cash flows by category for the periods presented:

(Amounts in thousands)	For the Six Months Ended June 30,			
	2017	2016	Change	% Change
Net cash flows provided by operating activities	\$ 160,046	\$ 197,485	\$ (37,439)	(19.0)%
Net cash flows used in investing activities	\$ (79,993)	\$ (42,584)	\$ (37,409)	87.8%
Net cash flows used in financing activities	\$ (76,647)	\$ (112,546)	\$ 35,899	(31.9)%

Net cash flows from operating activities decreased \$37.4 million, or 19.0%, to \$160.0 million for the six months ended June 30, 2017 compared to \$197.5 million for the six months ended June 30, 2016. The decrease in net cash flows from operations is primarily due to the timing of collections on accounts receivable and increased income tax payments of \$11.9 million primarily due to the settlement of several tax audits. Days sales outstanding ("DSO"), a key performance indicator that we utilize to monitor the accounts receivable average collection period and assess overall collection risk, was 63 days at June 30, 2017 compared to 61 days at June 30, 2016. An increase or decrease in DSO of approximately one day increases or decreases our net cash flows from operating activities by approximately \$6.3 million.

Net cash flows used in investing activities increased \$37.4 million to \$80.0 million for the six months ended June 30, 2017 compared to \$42.6 million for the six months ended June 30, 2016. During the six months ended June 30, 2017, cash used for capital expenditures, primarily for capacity expansion, product enhancements, development of new products and services, upgrades at existing facilities and data center consolidations, was \$53.2 million compared to \$73.9 million for the six months ended June 30, 2016. Net cash flows used for business acquisitions during the six months ended June 30, 2017 were \$20.1 million higher than the six months ended June 30, 2016. Net cash flows from investing activities for the six months ended June 30, 2016 included \$38.4 million for the sale of buildings that were previously occupied by the businesses we divested in 2015.

Net cash flows used in financing activities decreased \$35.9 million to \$76.6 million for the six months ended June 30, 2017 compared to \$112.5 million for the six months ended June 30, 2016. The decrease in cash used for financing activities is primarily due to \$22.0 million used to repurchase one million shares of our common stock during the six months ended June 30, 2016 and a decrease of \$18.6 million in dividend payments during the six months ended June 30, 2017. Repayments on long-term obligations during the six months ended June 30, 2017 were \$28.7 million higher than last year partially offset by \$25.2 million of lower debt issuance expenditures.

As of June 30, 2017, the amount of cash and cash equivalents held by our foreign subsidiaries was \$108.9 million. We have accrued U.S. taxes on \$98.3 million of unremitted foreign earnings and profits. We have determined foreign earnings of approximately \$241.4 million will be indefinitely reinvested. Based on our current projected capital needs and the current amount of cash and cash equivalents held by our foreign subsidiaries, we do not anticipate incurring any material tax costs beyond our accrued tax position in connection with such repatriation, but we may be required to accrue for unanticipated additional tax costs in the future if our expectations or the amount of cash held by our foreign subsidiaries change.

Given the Company's current levels of cash on hand, anticipated cash flows from operations and available borrowing capacity, the Company believes it has sufficient liquidity to conduct its normal operations and pursue its business strategy in the ordinary course.

Prior to July 31, 2017, we were party to a revolving trade accounts receivable financing facility among the Company, certain of our originating domestic subsidiaries, West Receivables Holding LLC, West Receivables LLC and Wells Fargo ("Securitization Facility").

Long-term Obligations

Our long-term obligations are comprised of the following:

- (i) Senior Secured Credit Facilities;
- (ii) 5.375% notes due 2022 (the "2022 Senior Notes") issued under an indenture; and
- (iii) 4.75% senior secured notes due 2021 (the "2021 Senior Secured Notes").

We and our subsidiaries, affiliates or significant stockholders may from time to time, in our sole discretion, purchase, repay, redeem or retire any of our outstanding debt or equity securities (including any publicly issued debt or equity securities), in privately negotiated or open market transactions, by tender offer or otherwise.

Senior Secured Credit Facilities

Term Loans

We have three tranches of term loans outstanding under our Senior Secured Credit Facilities: the 2021 Maturity A Term Loans, the 2021 Maturity B Term Loans and the 2023 Maturity Term Loans. As of June 30, 2017, we had outstanding approximately, \$629.7 million of 2021 Maturity A Term Loans, \$257.4 million of 2021 Maturity B Term Loans and \$861.3 million of 2023 Maturity Term Loans.

On each of June 17, 2016 (the “Seventh Amendment Effective Date”) and December 19, 2016 (the “Eighth Amendment Effective Date”), the Company, certain domestic subsidiaries of the Company, as subsidiary borrowers, Wells Fargo Bank, National Association (“Wells Fargo”), as administrative agent, and the various lenders party thereto modified the Senior Secured Credit Facilities by entering into the Seventh Amendment and Eighth Amendment, respectively, in each case, amending the Company’s Amended and Restated Credit Agreement, dated as of October 5, 2010, by and among the Company, Wells Fargo, as administrative agent, and the various lenders and other parties party thereto from time to time (as previously amended by Amendment No. 1 to Amended and Restated Credit Agreement, dated as of August 15, 2012, Amendment No. 2 to Amended and Restated Credit Agreement, dated as of October 24, 2012, Amendment No. 3 to Amended and Restated Credit Agreement, dated as of February 20, 2013, Amendment No. 4 to Amended and Restated Credit Agreement, dated as of January 24, 2014, Amendment No. 5 to Amended and Restated Credit Agreement, dated as of July 1, 2014, Amendment No. 6 to Amended and Restated Credit Agreement, dated as of November 24, 2015, the Seventh Amendment and, as further amended by the Eighth Amendment, the “Credit Agreement”).

With respect to our term loans, the Seventh Amendment:

- extended the maturity of a portion of the 2019 Maturity Term Loans, which mature July 1, 2019, to June 17, 2021 by converting such existing term loans into 2021 Maturity A Term Loans;
- extended the maturity of a portion of the 2018 Maturity Term Loans, which mature June 30, 2018, to June 17, 2023 by converting such existing term loans into 2023 Maturity Term Loans;
- provided for an increase of 2021 Maturity A Term Loans with incremental 2021 Maturity A Term Loans, which were added to and constitute a single class of term loans with the 2021 Maturity A Term Loans, such that the aggregate amount of 2021 Maturity A Term Loans (after giving effect to the incurrence of the incremental 2021 Maturity A Term Loans) was \$650.0 million;
- provided for an increase of 2023 Maturity Term Loans with incremental 2023 Maturity Term Loans, which were added to and constitute a single class of term loans with the 2023 Maturity Term Loans, such that the aggregate amount of 2023 Maturity Term Loans (after giving effect to the incurrence of the incremental 2023 Maturity Term Loans) was \$870.0 million;
- provided for new 2021 Maturity B Term Loans in an aggregate amount of \$260.0 million with a maturity date of June 17, 2021; and
- provided for annual amortization (payable in quarterly installments and based on the original aggregate principal amount of the 2021 Maturity A Term Loans outstanding on the Seventh Amendment Effective Date) in respect of the 2021 Maturity A Term Loans payable at a 2.5% annual rate for the three fiscal quarters in the nine-month period ending March 31, 2017, a 5.0% annual rate for the four fiscal quarters in the year ending March 31, 2018, a 7.5% annual rate for the four fiscal quarters in the year ending March 31, 2019, a 10.0% annual rate for the four fiscal quarters in the year ending March 31, 2020 and a 2.5% quarterly rate thereafter until the maturity date, at which point all remaining outstanding 2021 Maturity A Term Loans shall become due and payable.

Proceeds of the 2021 Maturity A Term Loans, 2023 Maturity Term Loans and 2021 Maturity B Term Loans were used on the Seventh Amendment Effective Date, together with proceeds from the 2021 Senior Secured Notes offering described below, to partially prepay existing non-extending 2019 Maturity Term Loans and existing non-extending 2018 Maturity Term Loans and to fully prepay existing non-extending B-11 Term Loans.

With respect to our term loans, the Eighth Amendment:

- reduced the applicable interest rate margin of the 2023 Maturity Term Loans by 50 basis points and of the 2021 Maturity B Term Loans by 25 basis points, as well as reduced the LIBOR floor and base rate floor on the 2021 Maturity B Term Loans from 0.75% to zero, and from 1.75% to zero, respectively;
- reset the annual amortization (payable in quarterly installments) in respect of the 2023 Maturity Term Loans in an amount equal to 1.0% of the aggregate principal amount of the 2023 Maturity Term Loans outstanding on the Eighth Amendment Effective Date until the maturity date, at which point all remaining outstanding 2023 Maturity Term Loans shall become due and payable; and
- reset the annual amortization (payable in quarterly installments) in respect of the 2021 Maturity B Term Loans in an amount equal to 1.0% of the aggregate principal amount of the 2021 Maturity B Term Loans outstanding on the Eighth Amendment Effective Date until the maturity date, at which point all remaining outstanding 2021 Maturity B Term Loans shall become due and payable.

The Eighth Amendment provided that, if the effective yield applicable to any incremental term loans issued under the Credit Agreement within 18 months of the Eighth Amendment Effective Date that are “B” term loans ranking equal in priority with respect to the collateral with the 2023 Maturity Term Loans and 2021 Maturity B Term Loans under the Credit Agreement exceeds the effective yield on the “B” term loans outstanding prior to such incremental borrowing by more than 50 basis points (giving effect to original issue discount, if any), then the effective yield on the “B” term loans (other than such incremental term loans) shall be increased by the same amount minus 50 basis points.

Our Senior Secured Credit Facilities bear interest at variable rates. The effective annual interest rate, inclusive of debt amortization costs, on the Senior Secured Credit Facilities, for the six months ended June 30, 2017 was 3.67% compared to 4.25% during the six months ended June 30, 2016. After giving effect to the Seventh Amendment and the Eighth Amendment, interest rates for our term loans were as follows:

- an interest rate margin applicable to the 2021 Maturity A Term Loans that is based on the Company’s total leverage ratio and ranges from 1.75% to 2.50% for LIBOR rate loans (2.25%, as of June 30, 2017), subject to a 0.0% interest rate floor for the LIBOR component of LIBOR rate 2021 Maturity A Term Loans, and from 0.75% to 1.50% for base rate loans (1.25%, as of June 30, 2017), for an all-in interest rate of 3.48% in effect as of June 30, 2017;
- an interest rate margin applicable to the 2023 Maturity Term Loans equal to 2.50% for LIBOR rate loans and 1.50% for base rate loans, subject to a 0.75% interest rate floor for the LIBOR component of LIBOR rate 2023 Maturity Term Loans, and subject to a 1.75% interest rate floor for the base rate component of base rate 2023 Maturity Term Loans, for an all-in interest rate of 3.75% in effect as of June 30, 2017; and
- an interest rate margin applicable to the 2021 Maturity B Term Loans equal to 2.50% for LIBOR rate loans, and 1.50% for base rate loans, subject to a 0.0% interest rate floor for both the LIBOR component of LIBOR rate 2021 Maturity B Term Loans, and the base rate component of base rate 2021 Maturity B Term Loans, for an all-in interest rate of 3.73% in effect as of June 30, 2017.

The Company may request additional committed term loan debt or increase the commitment amount to the revolving credit facility in an aggregate amount not to exceed \$500.0 million, plus the aggregate principal payments made in respect of the term loans under the Credit Agreement following June 17, 2016 (excluding such payments made with proceeds of term loans issued in connection with the Seventh Amendment and the 2021 Senior Secured Notes offering). Availability of such additional tranches of term loans or increases to the revolving credit facility is subject to the absence of any default and pro forma compliance with financial covenants and, among other things, the receipt of commitments by existing or additional financial institutions.

During the six months ended June 30, 2017, we repaid \$8.8 million in voluntary prepayments, which repaid the 2019 Maturity Term Loan in full and \$17.8 million of scheduled debt amortization payments on the Senior Secured Credit Facilities.

Senior Secured Revolving Credit Facility

On June 17, 2016, we amended the Credit Agreement to provide for an extended senior secured revolving credit facility (the “Senior Secured Revolving Credit Facility”) in an aggregate principal amount of \$300.0 million. The Senior Secured Revolving Credit Facility matures on June 17, 2021. The proceeds of the Senior Secured Revolving Credit Facility may be used for working capital and general corporate purposes (including dividends and distributions and acquisitions).

The interest rate margins applicable to the Senior Secured Revolving Credit Facility are based on the Company’s total leverage ratio and range from 1.75% to 2.50% for LIBOR rate loans, subject to a 0.0% interest rate floor for the LIBOR component of LIBOR rate loans, and from 0.75% to 1.50% for base rate loans. As of June 30, 2017, the interest rate margins applicable to the Senior Secured Revolving Credit Facility were 2.25% for LIBOR rate loans and 1.25% for base rate loans. We are required to pay each non-defaulting lender a commitment fee of 0.35% in respect of any unused commitments under the Senior Secured Revolving Credit Facility, which fee is subject to adjustment based upon our total leverage ratio.

The Senior Secured Revolving Credit Facility was undrawn at June 30, 2017 and its predecessor senior secured revolving credit facility was undrawn at December 31, 2016. The Senior Secured Revolving Credit Facility and its predecessor senior secured revolving credit facility were undrawn during the six months ended June 30, 2017 and June 30, 2016.

Senior Notes

Prior to July 31, 2017 under our Securitization Facility, trade receivables originated by certain of our domestic subsidiaries were sold or contributed to West Receivables Holdings LLC, which sold or contributed such trade receivables to West Receivables LLC, which sold undivided interests in the purchased or contributed trade receivables for cash to one or more financial institutions. The proceeds of the facility were available for general corporate purposes. The Securitization Facility provided a LIBOR spread on borrowings of 1.35% and for an unused commitment fee of 0.45% at any time the average daily borrowings during the month were less than 25% of the average daily available funding during such month and 0.25% at all other times.

At June 30, 2017 the Securitization Facility was undrawn. At December 31, 2016, \$34.0 million was drawn under the Securitization Facility. The highest outstanding balance during the six months ended June 30, 2017 was \$34.0 million.

The Securitization Facility was terminated on July 31, 2017.

Debt Covenants

Senior Secured Credit Facilities and Senior Secured Revolving Credit Facility—We are required to comply on a quarterly basis with a maximum total leverage ratio covenant and a minimum interest coverage ratio covenant. Pursuant to the Credit Agreement, the total leverage ratio of consolidated total debt to Consolidated EBITDA (as defined in our Credit Agreement) may not exceed 5.75 to 1.0 at June 30, 2017, and the interest coverage ratio of Consolidated EBITDA to the sum of consolidated interest expense must be not less than 1.85 to 1.0. The total leverage ratio will become more restrictive over time (adjusted annually until the maximum leverage ratio reaches 5.5 to 1.0 as of December 31, 2017). Both ratios are measured on a rolling four-quarter basis. We were in compliance with these financial covenants at June 30, 2017. Our ratio of total debt to Consolidated EBITDA (as defined in our Credit Agreement) was 4.31x at June 30, 2017, based on a trailing twelve month covenant adjusted EBITDA of \$685.9 million, and 4.45x at December 31, 2016, based on a trailing twelve month covenant adjusted EBITDA of \$672.9 million. The Credit Agreement also contains various negative covenants, including limitations on indebtedness, liens, mergers and consolidations, asset sales, dividends and distributions (excluding dividends and distributions to other restricted subsidiaries) or repurchases of our capital stock, investments, loans and advances, capital expenditures, payment of other debt, transactions with affiliates and changes in our lines of business. Each of the negative covenants is subject to specified exceptions. The Company has sufficient capacity under applicable exceptions included in the indentures governing the 2021 Senior Secured Notes and the 2022 Senior Notes, respectively, to complete a dividend in excess of the Company's net income for the six months ended June 30, 2017.

The Credit Agreement includes certain customary representations and warranties, affirmative covenants and events of default, including payment defaults, breaches of representations and warranties, covenant defaults, cross-defaults to certain indebtedness, certain events of bankruptcy, certain events under ERISA, material judgments, the invalidity of material provisions of the documentation with respect to the Senior Secured Credit Facilities, the failure of collateral under the security documents for the Senior Secured Credit Facilities, the failure of the Senior Secured Credit Facilities to be senior debt under the subordination provisions of certain subordinated debt we may have outstanding from time to time and a change of control of us. If an event of default occurs, the lenders under the Senior Secured Credit Facilities will be entitled to take certain actions, including the acceleration of all amounts due under the Senior Secured Credit Facilities and all actions permitted to be taken by a secured creditor. We believe that for the foreseeable future, the Senior Secured Credit Facilities and the Senior Secured Revolving Credit Facility offer us sufficient capacity for our indebtedness financing requirements and we do not anticipate that the limitations on incurring additional indebtedness included in the Credit Agreement will materially impair our financial condition or results of operations.

2021 Senior Secured Notes and 2022 Senior Notes—The indentures governing the 2021 Senior Secured Notes and the 2022 Senior Notes, respectively, contain covenants limiting, among other things, our ability and the ability of our restricted subsidiaries to: incur additional debt or issue certain preferred shares, pay dividends on or make distributions in respect of our capital stock or make other restricted payments (excluding dividends, distributions and restricted payments to other restricted subsidiaries), make certain investments, sell certain assets, create liens on certain assets to secure debt, consolidate, merge, sell, or otherwise dispose of all or substantially all of our assets, enter into certain transactions with our affiliates and designate our subsidiaries as unrestricted subsidiaries. Each of the negative covenants is subject to specified exceptions. We were in compliance with these financial covenants at June 30, 2017. The Company has sufficient capacity under applicable exceptions included in the indentures governing the 2021 Senior Secured Notes and the 2022 Senior Notes, respectively, to complete a dividend in excess of the Company's net income for the six months ended June 30, 2017.

Our failure to comply with these debt covenants may result in an event of default which, if not cured or waived, could accelerate the maturity of our indebtedness. If our indebtedness is accelerated, we may not have sufficient cash resources to satisfy our debt obligations and we may not be able to continue our operations as planned. If our cash flows and capital resources are insufficient to fund our debt service obligations and keep us in compliance with the covenants under our Credit Agreement or to fund our other liquidity needs, we may be forced to reduce or delay capital expenditures, sell assets or operations, seek additional capital or restructure or refinance our indebtedness including the notes. We cannot ensure that we would be able to take any of these actions, that these actions would be successful and would permit us to meet our scheduled debt service obligations or that these actions would be permitted under the terms of our existing or future debt agreements, including our Senior Secured Credit Facilities and the indentures that govern the 2021 Senior Secured Notes and the 2022 Senior Notes. The Credit Agreement and the indentures that govern the 2021 Senior Secured Notes and the 2022 Senior Notes restrict our ability to dispose of assets and use the proceeds from the disposition. As a result, we may not be able to consummate those dispositions or use the proceeds to meet our debt service or other obligations, and any proceeds that are available may not be adequate to meet any debt service or other obligations then due.

If we cannot make scheduled payments on our debt, we will be in default, and as a result:

- our debt holders could declare all outstanding principal and interest to be due and payable;
- the lenders under our Senior Secured Credit Facilities and the Senior Secured Revolving Credit Facility could terminate their commitments to lend us money and, together with the holders of our 2021 Senior Secured Notes, foreclose against the assets securing our borrowings; and
- we could be forced into bankruptcy or liquidation.

Contractual Obligations

We have contractual obligations that may affect our financial condition. However, based on management's assessment of the underlying provisions and circumstances of our material contractual obligations, management believes there is no known trend, demand, commitment, event or uncertainty that is reasonably likely to occur which would have a material effect on our financial condition or results of operations.

The following table summarizes our contractual obligations, in thousands, at June 30, 2017:

Contractual Obligations	Payment due by period				
	Total	Less than 1 year	1 - 3 years	4 - 5 years	After 5 years

- (1) Interest rate assumptions based on June 30, 2017 LIBOR U.S. dollar swap rate curves for the next five years. Includes agency fees, unused commitment fees and the receipt of \$12.8 million of cash settlements from interest rate swap hedges of variable-rate debt.
- (2) Represents future obligations for capital and expense projects that are in progress or are committed.

The table above excludes amounts to be paid for taxes and long-term obligations under our Executive Retirement Savings Plan and the Deferred Compensation Plan. The table also excludes amounts to be paid for income tax contingencies because the timing thereof is highly uncertain. At June 30, 2017, we had accrued \$28.9 million, including interest and penalties for uncertain tax positions.

Capital Expenditures

Our operations require significant capital expenditures for technology, capacity expansion and upgrades. Capital expenditures were \$53.2 million for the six months ended June 30, 2017 compared to \$73.9 million for the six months ended June 30, 2016. We currently estimate our capital expenditures for the remainder of 2017 to be between \$46.8 million and \$76.8 million, primarily for capacity expansion, product enhancements, development of new products and services, upgrades at existing facilities and data center consolidations.

Off-Balance Sheet Arrangements

Performance obligations of several of our subsidiaries are supported by performance bonds and letters of credit. These obligations will expire at various dates through 2018 and are renewed as required. The outstanding commitment on these obligations at June 30, 2017 was \$6.3 million.

Effects of Inflation

We do not believe that inflation has had a material effect on our financial position or results of operations. However, there can be no assurance that our business will not be affected by inflation in the future.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements requires the use of estimates and assumptions on the part of management. The estimates and assumptions used by management are based on our historical experiences combined with management's understanding of current facts and circumstances. Certain of our accounting policies are considered critical as they are both important to the portrayal of our financial condition and results of operations and require significant or complex judgment on the part of management. The accounting policies we consider critical are our accounting policies with respect to revenue recognition, allowance for doubtful accounts, goodwill and other intangible assets, income taxes, property and equipment, capitalization of internal costs and share-based compensation.

For additional discussion of these critical accounting policies, see "Management's Discussion and Analysis of Financial Condition and Results of Operations" section of our Annual Report on Form 10-K for the year ended December 31, 2016. There have not been any significant changes with respect to these policies during the six months ended June 30, 2017.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market Risk Management

Market risk is the potential loss arising from adverse changes in market rates and prices, such as interest rates, foreign exchange rates and changes in the market value of investments. The effect of inflation on our variable interest rate debt is discussed below in "Interest Rate Risk."

Interest Rate Risk

As of June 30, 2017, we had \$1,748.4 million outstanding under our Senior Secured Credit Facilities, \$400.0 million outstanding under our 2021 Senior Secured Notes and \$1.0 billion outstanding under our 2022 Senior Notes.

On July 26, 2016, we entered into four interest rate swaps for hedging purposes: two 1-month LIBOR swaps with a combined beginning notional value of \$275.0 million and two 3-month LIBOR swaps with a combined beginning notional value of \$275.0 million, each with a maturity date of July 17, 2021. The 1-month LIBOR swaps were effective July 29, 2016, with no amortization or variable interest rate floor. The 3-month LIBOR swaps were effective as of June 30, 2017, with 1% amortization per year and a 75 basis point LIBOR floor. The contracts provide for the receipt of variable interest rate amounts from the counterparties in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional values.

With the hedge program in effect, our fixed-rate debt as a percent of our total debt at June 30, 2017 was 62%. As a result of prevailing LIBOR rates, material rate increases on our variable-rate debt are possible, albeit at a less impactful pace as a result of the hedge program.

At June 30, 2017, the 30 and 90 day LIBOR rates were approximately 1.22611% and 1.29639%, respectively. An additional 50 basis point increase to LIBOR rates as of June 30, 2017 would have resulted in a quarterly increase in interest expense on our variable-rate debt of approximately \$1.5 million net of the 1-month and 3-month LIBOR swaps.

Foreign Currency Risk

Revenue and expenses from our foreign operations are typically denominated in local currency, thereby creating exposure to changes in exchange rates. Generally, we do not hedge our foreign currency transactions. Changes in exchange rates may positively or negatively affect our revenue and net income attributed to these subsidiaries. Based on our level of operating activities in foreign operations during the three months ended June 30, 2017, a 10% change in the value of the U.S. dollar relative to the Euro and British Pound Sterling would have positively or negatively affected our net operating income by approximately 1.2%.

For both the three and six months ended June 30, 2017, revenues from non-U.S. countries were approximately 19% of consolidated revenues. For both the three and six months ended June 30, 2016, revenues from non-U.S. countries were approximately 21% of consolidated revenues. During the three and six months ended June 30, 2017, revenue from the United Kingdom accounted for approximately 11% of consolidated revenues in both periods. During both the three and six months ended June 30, 2016, revenue from the United Kingdom accounted for 13% of consolidated revenues. The United Kingdom was the only foreign country which accounted for greater than 10% of revenue. At June 30, 2017 and December 31, 2016, long-lived assets from non-U.S. countries were approximately 8% and 7% of consolidated long-lived assets, respectively. We have generally not entered into forward exchange or option contracts for transactions denominated in foreign currency to hedge against foreign currency risk. We are exposed to translation risk because our foreign operations are in local currency and must be translated into U.S. dollars. As currency exchange rates fluctuate, translation of our Statements of Operations of non-U.S. businesses into U.S. dollars affects the comparability of revenue, expenses and operating income between periods.

Investment Risk

Periodically, we have entered into interest rate swap agreements (also referred to as cash flow hedges) to convert variable long-term debt to fixed-rate debt. On July 26, 2016, we entered into four interest rate swaps, two 1-month LIBOR swaps with a combined beginning notional value of \$275.0 million and two 3-month LIBOR swaps with a combined beginning notional value of \$275.0 million, all with a maturity date of July 17, 2021. The 1-month LIBOR swaps were effective July 29, 2016, with no amortization or variable interest rate floor. The 3-month LIBOR swaps were effective as of June 30, 2017, with 1% amortization per year and a 75 basis points LIBOR floor. The contracts provide for the receipt of variable interest rate amounts from the counterparties in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amounts. Our objective in using interest rate swaps is to add stability to interest expense and to manage exposure to interest rate movements. The interest rate swaps will be used to hedge the variable cash flows associated with existing variable-rate debt.

As required under ASC 815, *Derivatives and Hedging*, we recorded the interest rate swaps on the balance sheet at fair value. The interest rate swaps are considered cash flow hedges. We have elected to apply hedge accounting and believe the designated hedging relationship and terms of the interest rate swaps have satisfied the criteria necessary to apply hedge accounting.

The effective portion of changes in the fair value of the interest rate swaps is recorded in accumulated other comprehensive loss and will be subsequently reclassified into earnings in the period that the hedged transactions affect earnings. The ineffective portion, if any, of the change in fair value of the interest rate swaps is recognized in earnings.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures. Our management team continues to review our internal controls and procedures and the effectiveness of those controls. As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer and Treasurer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934, as amended. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer and Treasurer concluded that, as of June 30, 2017, our disclosure controls and procedures are effective in ensuring that the information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms and (ii) that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer as appropriate to allow timely decisions regarding required disclosure.

Changes in internal control over financial reporting. During the six months ended June 30, 2017, we implemented a new Procure-to-Pay system in the majority of our domestic and Canadian subsidiaries. Various processes and controls were modified due to the new system. Additionally, we implemented additional compensating controls over financial reporting to ensure the accuracy and integrity of our financial statements during the post-implementation phase. We believe the system of process changes will enhance internal control over financial reporting in future periods.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In the ordinary course of business, we and certain of our subsidiaries are defendants in various litigation matters and are subject to claims from our clients for indemnification, some of which may involve claims for damages that are substantial in amount.

Accruals have been made with respect to these matters, where appropriate, which are reflected in the Company's consolidated financial statements. The Company may enter into discussions regarding settlement of these matters, and may enter into settlement agreements, if it believes settlement is in the best interest of the Company. The matters discussed below, if decided adversely to or settled by the Company, individually or in the aggregate, may result in liability material to the Company's financial condition and/or results of operations.

In connection with the transactions contemplated by the Merger Agreement between the Company and affiliates of certain funds managed by affiliates of Apollo Global Management, LLC, five putative class action lawsuits were filed between June 26, 2017 and June 29, 2017 in the United States District Court for the District of Nebraska: *Scarantino v. West Corp., et al.*, 4:17-cv-03080-JMG-CRZ (D. Neb.); *Wyant v. West Corp., et al.*, 4:17-cv-03081-JMG-CRZ (D. Neb.); *Wilson v. West Corp., et al.*, 8:17-cv-00228-JMG-CRZ (D. Neb.); *Bushansky v. West Corp., et al.*, 4:17-cv-03083-JMG-CRZ (D. Neb.); and *Katz v. West Corp. et al.*, 4:17-cv-03084-JMG-CRZ (D. Neb.). The lawsuits were each filed against West and the members of the Board, and two of the lawsuits were additionally filed against Apollo Global Management and certain affiliates of funds managed by Apollo Global Management, Mount Olympus Holdings, Inc. and Olympus Merger Sub, Inc. Each alleges that the proxy statement filed in connection with the Merger violated federal securities laws in purportedly omitting to disclose information necessary to make the statements therein not materially false or misleading, including, among other things, certain financial information. One of the lawsuits additionally alleges that our directors breached their fiduciary duties in, among other things, purportedly conducting an inadequate sales process that resulted in an offer that purportedly undervalues the Company, and in filing the purportedly misleading proxy statement. On July 19, 2017, West supplemented its disclosures with respect to the transaction. On July 19, 2017, the plaintiffs in these five actions entered into a Memorandum of Understanding with the defendants that provides for, among other things, the voluntary dismissal of the actions on mootness grounds with prejudice as to the named plaintiffs.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the risks described under Item 1A in our Annual Report on Form 10-K for the year ended December 31, 2016. If any of the risks described therein occur, our business, financial condition, liquidity and results of operations could be materially affected.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the six months ended June 30, 2017, 35,803 shares of our common stock were withheld to satisfy tax withholding obligations. These shares are permanently removed from the 2013 Long-Term Incentive Plan reserve.

The Merger Agreement (see Note 1 to the Company's condensed consolidated financial statements) prohibits us declaring or paying any dividend or other distribution with respect to the capital stock of West, whether payable in cash, stock, property or a combination thereof, without Parent's consent. On May 9, 2017, we announced that the payment of future dividends had been suspended.

Item 5. Other Information

Retirement of Chief Accounting Officer

On August 3, 2017, the Company announced that its Chief Accounting Officer, R. Patrick Shields, has decided to retire during the first quarter of 2018. The Company further announced its plans to initiate a search for a new Chief Accounting Officer.

WHEREAS, as a condition to entering into the PBRSU Amendment, the Company has required that Executive enter into this Agreement.

NOW THEREFORE, the parties agree as follows:

I. Covenant Not to Compete.

In order to better protect the goodwill of the Company and to prevent the disclosure of the Company's trade secrets and confidential information and thereby help ensure the long-term success of the business, Executive will not engage in any activity or provide any services, whether as a director, manager, supervisor, employee, adviser, consultant or otherwise, for a period of eighteen (18) months following the date of Executive's termination of employment with the Company, in connection with the development, advertising, promotion, or sale of any service which is the same as or similar to or competitive with any services of the Company (including both existing services as well as services known to Executive, as a consequence of Executive's employment with the Company, to be in development):

1. with respect to which Executive's work has been directly concerned at any time during the one (1) year preceding termination of employment with the Company; or

Executive further acknowledges that in view of the nature of the business in which the Company is engaged, the restrictions contained in this section are reasonable and necessary in order to protect the legitimate interests of the Company. Executive further acknowledges and agrees that any violation of this section will result in irreparable injuries to the Company. Executive, therefore, acknowledges that in the event of her violation of the provisions of this section, the Company shall be entitled to obtain from any court of competent jurisdiction preliminary and permanent injunctive relief. In addition to other available remedies, Executive's breach of this section shall entitle the Company to the return of any amounts paid solely as a result of the PBRSU Amendment.

II. General Provisions.

A. Non-Waiver. The failure of either party to insist in any one or more instances upon performance of any of the terms or conditions of this Agreement shall not be construed as a waiver or a relinquishment of any right granted hereunder, or of the future performance of any such term, covenant or condition, but the obligations of either party with respect thereto shall continue in full force and effect.

B. Successors. This Agreement shall inure to the benefit of and be binding upon the Company, its successors, and assigns, including without limitation, any person, partnership, or corporation that may acquire voting control of the Company or all or substantially all of its assets and business, or that may be a party to any consolidation, merger, or other transaction.

D. Construction. The language in all parts of this Agreement shall in all cases be construed as a whole according to its fair meaning, strictly neither for nor against either party hereto, and without implying a presumption that the terms thereof shall be more strictly construed against one party by reason of the rule of construction that a document is to be construed more strictly against the person who or through an agent prepared the same.

E. Severability. If any portion of this Agreement shall be invalid or unenforceable, the parties agree that such invalidity or unenforceability shall in no way affect the validity or enforceability of any other portion of this Agreement.

F. Notice. For purposes of this Agreement, all notices and other communications required or permitted hereunder shall be in writing and shall be deemed to have been duly given when delivered or 5 days after deposit in the United States mail, certified and return receipt requested, postage prepaid, addressed as follows:

With a copy to:

Either party may change its address for notice by giving notice in accordance with the terms of this section.

G. Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but which together shall constitute one and the same instrument.

H. Miscellaneous. Executive acknowledges that:

A. She has consulted with or had an opportunity to consult with an attorney of Executive's choosing regarding this Agreement.

The Grantee's right to the Award is subject to the restrictions described in this Agreement in addition to such other restrictions, if any, as may be imposed by law. The Award shall be null and void unless the Grantee accepts this Agreement by executing it in the space provided below and returning such original execution copy to the Company. As soon as practicable after the Grantee has executed this Agreement and returned it to the Company, the Company shall cause the Award to be delivered to the Grantee, by wire transfer of immediately available funds to the account designated by the Grantee, net of any applicable mandatory tax withholding.

2. Forfeiture Risk. If the Grantee ceases for any reason prior to the expiration of the Restriction Period serving as a Non-Employee Director (as defined in the West Corporation Amended and Restated 2013 Long-Term Incentive Plan (the "Plan")), including by reason of death, then (subject to any contrary provision of this Agreement or any other written agreement between the Company and the Grantee with respect to vesting and termination of the Award), the Award shall be automatically and immediately forfeited. Following forfeiture of the Award pursuant to this Agreement, the Grantee shall, upon request by the Company, repay to the Company the full amount of the Award within 10 business days following delivery of such request.

3. Vesting of Award. The Award shall vest during the Grantee's continuous tenure as a Non-Employee Director of the Company in accordance with the provisions of this Section 3. The period of time during which the Award shall be unvested shall be referred to herein as the "Restriction Period." Notwithstanding the above, 100% of the Award shall vest immediately upon a Change in Control (as defined in the Plan). Notwithstanding the foregoing (but subject to any contrary provision of this Agreement or any other written agreement between the Company and the Grantee), the Award shall not vest on any date specified above unless the Grantee's tenure as a Non-Employee Director of the Company is then, and since the Grant Date has been, continuous.
